PUBLIC COMMENT

David Shelton stated his surprise by the change to a limited number of fireworks on New Year's Eve in the area he lives, and gave kudos to Code Enforcement Officer Burke and the Citrus Heights See-Click-Fix procedure to report fireworks and hopefully gunshot sounds. He stated the gunshot locations are far more difficult to determine because they echo and the issue for bullets is not the noise, but what they do.

David Warren requested the City reinstitute several days a year for the collection of hazardous waste. He stated he found materials that shouldn't have been allowed during the last Neighborhood Clean Up. He noted historically that three times a year items could be disposed of during a bulky waste cleanup event at the Sunrise Mall and since we are not doing it anymore it is encouraging people not to properly dispose of hazardous waste.

PUBLIC HEARINGS

12. **SUBJECT:** Multi-Modal Impact Fee Addendum
STAFF REPORT: R. Cave / C. Kempenaar

RECOMMENDATION: Adopt Resolution No. 2025-004 A Resolution of the City Council of the City of Citrus Heights, California, Adopting an Addendum to the Multi-Modal Impact Fee Nexus Study

General Services Director Cave explained the City adopted Sacramento County's Development Impact Fees (DIF), including roadway and transit, following incorporation in 1997. These fees have not been indexed or adjusted for cost-of-living changes. In 2022, Council adopted a Multi-modal Impact Fee Nexus Study. She explained impact fees are determined by land use growth assumptions and the Capital Improvement Plan to accommodate growth which is incorporated into the Nexus Study. They determine a cost of Dwelling Unit Equivalent (DUE) to support the Capital Improvement Plan and apply DUE costs to new land uses. Fees must be used to maintain the same level and quality of services for residents, including projects such as road construction, trails, streetlights, and other project improvements included in the 2022 Nexus Study.

Community Development Director Kempenaar provided context on a Supreme Court case, Sheetz v. County of El Dorado, which added guidelines for how impact fees are implemented and reaffirmed the proportional Nexus required. The proposed impact fee addendum would clarify the need for site-specific analysis to calculate fair and equitable impacts for projects.

My request to you tonight is, I would like to be considered for an open Planning Commission Seat. My 30 years of successful Small Business Management and the hundreds of Large Telecommunications Projects seen through to completion should be considered as very valuable experience in my request. Also the fact that I am retired and will be able to devote my full energies and efforts to the success of our City. I LOVE this City and would be greatly honored to be appointed to this Planning Commission Seat. I also want to wish all of the Members of this City Council well and look forward to the continued progress and the positive direction our fine City is currently heading. Thank you"

15. **SUBJECT:** Citrus Heights Police Department Animal Services Unit, Service Enhancement Update

STAFF REPORT: A. Turcotte / K. Frey / T. Campbell / D. Miller

RECOMMENDATION: This is an informational report and no action is associated with this item.

Police Services Manager Campbell introduced the item.

City Manager Feeney clarified the strategic objective to enhance Animal Services was adopted in March 2024 and since that time the City has purchased a property on Old Auburn Road with a vision to potentially enhance Animal Services at that property. The focus of tonight's presentation is on the

enhancements that have been made since the adoption of the strategic objective at the last Strategic Planning Retreat. Discussion of the property on Old Auburn Road will be held at a future meeting.

Police Services Supervisor Miller reported on Animal Services Unit updates since the City entered into an agreement with the Bradshaw Animal Shelter. She highlighted service delivery enhancements including local animal sheltering with an on-site hospital, 24-hour customer call center through 311 dispatch services, online reporting, and low-cost spay/neuter clinic. The Animal Services Unit has also held a free microchip event, secured a local kennel dedicated to patrol staff, integrated into a new software system, and worked with a local nonprofit for special Trap Neuter Release (TNR) operations among other accomplishments. They researched TNR programs and outcomes in neighboring jurisdictions which reaffirmed challenges including labor intensive, cost prohibitive, and limited infrastructure. They also implemented a quick and easy way to license your pet via QR code or a microchip appointment. Future goals include a focus on more community events for microchipping and operational efficiency.

Police Services Manager Campbell emphasized that pet licensing helps keep pets out of the shelter thereby keeping costs down and keeping pets in their community to be returned home instead of bringing them to the shelter.

City Council questions and comments followed.

Police Services Manager Campbell responded to questions.

DEPARTMENT REPORTS

16. **SUBJECT:** Annual Communications Update
 DEPARTMENT: Economic Development and Community Engagement

Communications Officer Brown provided an overview of the functions of the Communications team whose efforts are built around a strategic framework that allows for consistency of messages across all communication efforts. Their goals are to ensure all proactive communications support strategic objectives, are meaningful and keep in mind the needs of the Citrus Heights community and partners, and ensure communications are measurable so we can learn from them. Since 2023, the City's channels including Instagram, Facebook, X (Twitter), and LinkedIn have had an increase in followers and further reach. Social media accomplishments in 2024 include 880,640 impressions, 7.51% engagement rate and 690 posts across all channels with 1,373 new followers. She spotlighted the Citrus Heights Cares campaign, local business highlights, and Building Safety Month. The City's website had 309,000 visitors and over 2,300 NewsFlash subscribers. This year the City launched a new Business Bulletin newsletter which focuses primarily on businesses. The City received 4,697 media mentions with the media sentiment generally being neutral or positive. The Communications team received four Public Relations Society of America (PRSA) Awards this year.

City Council comments followed.

17. **SUBJECT:** New Year's Eve Enforcement Update
 DEPARTMENT: Police Department

Police Chief Turcotte reported there is a problem in Citrus Heights with illegal fireworks which is also a top concern in the region on the Fourth of July and New Year's Eve. The Police Department (CHPD) is

looking at best practices to try to curb some of the behavior. He noted enforcement is difficult because launching an illegal firework is a misdemeanor which means someone has to observe where the firework came from. One strategy tested this New Year's Eve was a Citizens Attestation program in which a citizen who observed fireworks can sign a form confirming they witnessed the act, like a citizen's arrest, through the City's online reporting system See-Click-Fix. Compared to prior years, this New Year's Eve was relatively peaceful and the public's perception was that there were less illegal fireworks in some areas. He noted Sacramento Metropolitan Fire District reported a 40% decrease in firework complaints and no injuries countywide. In Citrus Heights, CHPD received 62 firework complaints, an increase correlated with a social media campaign aimed at influencing residents to report.

City Council questions and comments followed.

Police Chief Turcotte responded to questions.

CITY MANAGER ITEMS

City Manager Feeney highlighted the successful opening of Dark Heart Brewing, a recipient of the City's Business Attraction Grant. He announced a free Flu Shot Clinic hosted by Sacramento County at City Hall on January 16. He gave a reminder that City Hall will be closed on January 20 in observation of Martin Luther King Jr. Day.

ITEMS REQUESTED BY COUNCIL MEMBERS / FUTURE AGENDA ITEMS

TO: Mayor and City Council Members
Ashley J. Feeney, City Manager

SUBJECT: Utility Locating and Marking Services Project GS 24-14 Professional Services Contract Award

Summary and Recommendation

The City of Citrus Heights as owner and operator of electrical and stormwater utility facilities in the public right of way, is required by state law to locate and mark City-owned utilities as requested by Underground Service Alert (USA) notifications.

The City issued a Request for Proposals for professional services related to Utility Locating and Marking Services and received two proposals. National Utility Locators LLC was selected as the most qualified and cost-effective vendor.

Staff recommends the City Council adopt Resolution No. 2025-____ A Resolution of the City Council of the City of Citrus Heights, California, Authorizing the City Manager to Execute a Professional Services Agreement with National Utility Locators LLC for Utility Locating and Marking Services.

City Council Strategic Goal/Objective

This item aligns with the Citrus Heights City Council Strategic Plan Goals to “Maintain and Enhance Fiscal Stability” and to “Maintain Public Infrastructure and Enhance Alternative Modes of Transportation”.

Fiscal Impact

The City has budgeted sufficient funds in Gas Tax (fund 205) and Stormwater Utility funds (fund 209) for Utility Locating and Marking Services. Field investigations are charged as follows:

Subject: Utility Locating and Marking Services – Professional Services Contract Award

Date: January 22, 2025

Page 2 of 2

| Field Investigations/Locates | Rate |
|------------------------------|------|
| 100 or fewer per month | \$88 |
| 101-200 per month | \$80 |
| 201 or more per month | \$76 |

Rates are fully inclusive of administrative, ticket review/monitoring, mobilization and necessary equipment. No additional costs are associated with the contract. An annual adjustment based on the CPI with a ceiling of 3% per year is included.

FY 23-24 averaged 154 locates per month with a total cost of \$144,528. FY 24-25 is currently averaging 163 locates per month. Cost estimates for future years will be included in the upcoming budget process.

Background and Analysis

California Government Code Section 4216 mandates that owners and operators of all underground utilities (e.g., water, gas, electric, sewer, stormwater) become members of the regional notification center. The intention of this regional notification center is to protect the health and safety of the public as it relates to excavation activities on public right of ways by anyone performing excavation.

Prior to the start of any underground excavation work, contractors call the toll-free number of USA North (Northern California) with site specific detail related to their upcoming work. USA North then notifies all owners of utility systems in the region and each utility owner and operator must mark their underground utilities within the zone where the excavation activity will take place.

The City, as owner and operator of electrical and stormwater utility facilities in the public right of way, is required by state law to locate and mark City-owned utilities as requested by USA notifications.

The City issued a request for proposals to provide Utility Locating and Marking Services on November 13, 2024. Proposals were received from National Utility Locators LLC and Builders Protection Group LLC, by the December 13, 2024 deadline. A selection committee was convened and selected National Utility Locators LLC as the most qualified and cost-effective vendor.

Background and Analysis

The TDA authorizes two major funding sources for public transportation that are administered by the Department of Transportation. These funds are then apportioned through regional planning and programming agencies such as the Sacramento Area Council of Governments (SACOG).

TDA funds are broken out into two major pots, LTF and State Transit Assistance (STA), which have been in existence since 1972 and 1979 respectively. LTF and STA carry different restrictions associated with their use. LTF funds are derived from a ¼ cent sales tax on each retail tax dollar collected statewide. The State then returns the tax revenue to each county according to the amount of tax collected within its boundaries. LTF apportionment is carried out by Regional Transportation Planning Agencies (RTPAs) throughout the State. In Sacramento County, the RTPA is SACOG, which then distributes LTF based on population.

STA dollars are allocated to transit operators and providers. STA funds are currently derived from a statewide excise tax on gasoline at a rate that generates the equivalent of the previous sales tax on gasoline and the statewide sales tax on diesel fuel, both of which are deposited in the Transportation, Planning and Development account. This is based on legislation passed in March 2010 (Assembly Bills 6 and 9). The City of Citrus Heights annexed into the Sacramento Regional Transit District (SACRT) on January 1, 2019. Under the terms of the Annexation Agreement, SACRT directly claims the LTF and STA funding apportionments related to transit service. The City continues to claim the bicycle-pedestrian apportionments, the subject of this TDA Claim.

SACOG's apportionment claim process includes the following:

- 1) SACOG receives an adopted resolution from the city/local agency authorizing the TDA funding claim;
- 2) SACOG holds annual public hearings to identify if there are any unmet transit needs within the city that are reasonable to meet;
- 3) The city/local agency files various reports for SACOG staff review and approval; and
- 4) SACOG submits the city's claim for review and approval by SACOG.
